

42.Honda RA 301-F1 1968

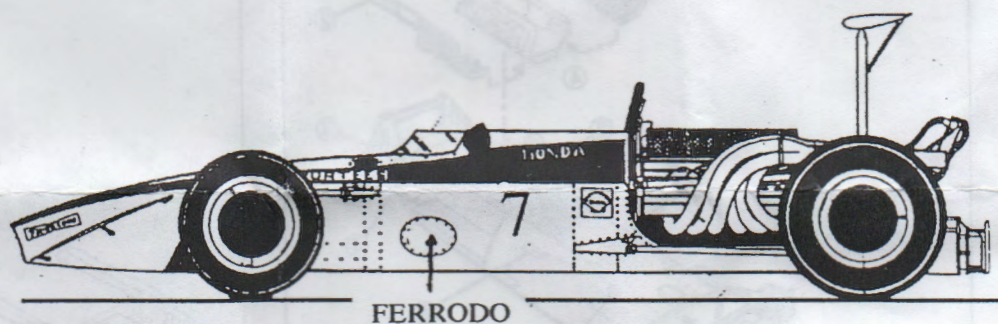

Made with the assistance of the Make-up Co. Tokyo, Japan

Building your 1/43rd Scale Racing Car.

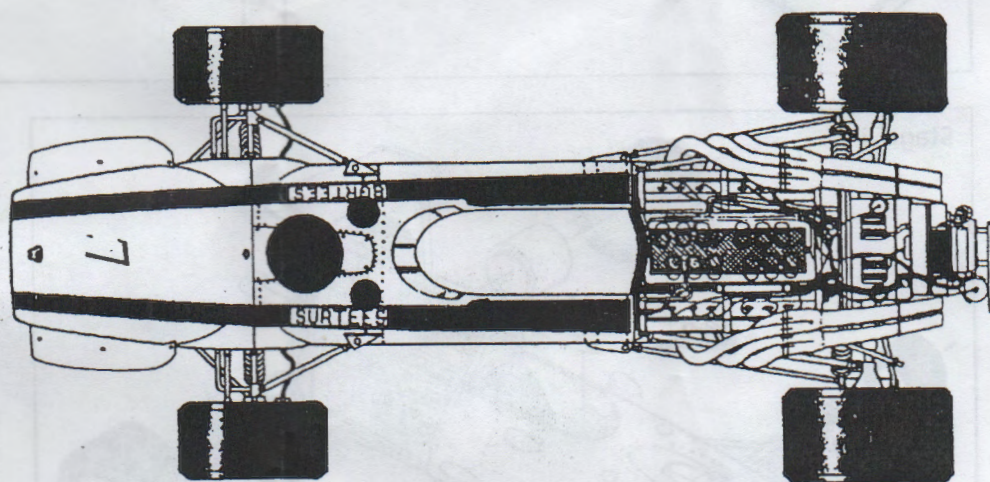

The 31litre V12 RA 301 was driven by John Surtees. At it's first race, the Spanish GP, it was in 3rd place but retired when a gear selector failed.

At the French GP Surtees finished 2nd even after stopping for a new pair of goggles. The new high wing fitted for the British GP collapsed during the race but Surtees still finished 5th!

A 3rd place in the US GP was the final result of a season spoiled by mechanical problems.

FRENCH GP CAR No 16 NO WING. BRITISH GP CAR No 7 WITH WING.
